July 28 - 30, 2003, Frankfurt am Main, Germany

Goal

- To increase the ability to share cataloguing information worldwide by promoting standards for the content of bibliographic and authority records used in library catalogues.

Objectives

July 28 - 30, 2003, Frankfurt am Main, Germany

- To examine cataloguing codes currently in use in Europe to compare their similarities and differences to see if we can get closer together and perhaps develop an International Cataloguing Code.

Desired Outcomes

- Draft revision or new Statement of Cataloguing Principles for today and the future
- Working Group recommendations for future harmonization of cataloguing codes
 - Basic rules that might form the basis for an International Cataloguing Code

Agenda

- Paris Principles
- ISBD
- FRBR
- Overview of current cataloguing code rule making bodies
- Virtual International Authority File (VIAF)
- Code comparisons with respect to Paris Principles
 - Personal names
 - Corporate bodies
 - Seriality
 - Uniform titles/GMDs
 - Multipart structures

Paris Principles

- Scope
- Function
- Structure of the Catalogue
- Kinds of Entry
- Use of Multiple Entries
- Choice of Uniform Heading
- Single Personal Author
- Entry under Corporate Bodies
- Multiple Authorship
- Works Entered under Title, Uniform Headings for Works, etc.
- Entry Word for Personal Names

Cataloguing Codes used in Europe

- AACR2 (Anglo-American)
- AAKP (Czech)
- AFNOR (French)
- BAV (Vatican)
- KBARSM (Lithuanian)
- KBSDB (Danish)
- KSB (Swedish)
- MSZ (Hungarian)
- PPIAK (Croatian)
- PPIAK (Macedonian)
- PPIAK (Slovenian)
- RAK (German)
- RAKK (Bulgarian)
- RC (Spanish)
- RCR (Russian)
- RICA (Italian)
- RT (Dutch)
- SL (Finnish)

Agenda

- Paris Principles
- ISBD
- FRBR
- Overview of current cataloguing code rule making bodies
- Virtual International Authority File (VIAF)
- Code comparisons with respect to Paris Principles
 - Personal names
 - Corporate bodies
 - Seriality
 - Uniform titles/GMDs
 - Multipart structures

Recommendations from Working Groups

- WG 1 – Personal Names
 - Leader: Ann Huthwaite, chair Joint Steering Committee for Revision of AACR2

WG 1 Personal Names

- Code comparisons:
 - Concept of an “authorized heading” is common among all codes
 - Choice of name – a lot of similarity, except regarding “bibliographic identity” so pseudonyms are also an area where codes differ
 - Structure of headings – similarity on entry element but codes vary more on rules for additions to names

WG 1 Personal Names

- Discussion
 - Practicality of doing authority control for all names versus value to users for differentiating names of persons
 - Parallel headings (authorized headings according to different cataloguing code, different script, or to suit the user community) and VIAF possibilities

WG 1 Personal Names

- Discussion, continued
 - Recommend following original script whenever possible
- Choice and form of names – no specific recommendations but desire to have standard transliteration schemes.

WG 1 Personal Names

- Recommendations
 - Use IFLA *Names of Persons* and national (or international) authority files as a starting point
 - Include rules for authority control in cataloguing codes
 - Change wording in the draft statement to reflect determining entry word for name of a person based on a person’s “citizenship” and when not determinable, then by agreed usage in the country in which the person generally resides (still very controversial)

Recommendations from Working Groups

- WG 2 – Corporate Names
 - Leaders: Claudia Fabian, Bayerische Staatsbibliothek &
 - Mauro Guerrini, Università di Firenze

Recommendations from Working Groups

- WG 3 – Seriality
 - Leaders: Gudrun Henze, chair Expert Group RAK and
 - Renate Gömpel, Die Deutsche Bibliothek

Recommendations from Working Groups

- WG 4 – Multipart Structures
 - Leader: Gunilla Jonsson, National Library of Sweden

Recommendations from Working Groups

- WG 5 – Uniform Titles/GMD
 - Leaders: Monika Münnich, Univ. Heidelberg
 - And
 - Hans Popst, Bayerische Beamtenfachhochschule

DRAFT Statement of International Cataloguing Principles

(December 19, 2003)

- Introduction
- 1. Scope:
 - current library catalogues
 - a consistent approach to descriptive and subject cataloguing of bibliographic resources of all kinds and to controlled and uncontrolled access points
 - could be applied to bibliographies and data files created in other information communities (modified if appropriate)

DRAFT Statement of International Cataloguing Principles

(December 19, 2003)

1. Scope continued:
 - Highest principle - the convenience of the users of the catalogue
2. Entities, Attributes, Relationships
 - (FRBR and FRANAR)
3. Functions of the Catalogue
4. Bibliographic description (ISBDs)

DRAFT Statement of International Cataloguing Principles

(December 19, 2003)

5. Access Points
 - Uncontrolled and controlled
 - Suited to catalogue users
6. Authority Records
 - To control forms of names
7. Foundations for Search Capabilities

Next Steps

- Glossary of terms & concepts / MulDiCat (Aug.)
- Draft statement publicly distributed for discussion and comment
 - Especially starting with relevant IFLA Sections, professional library organizations, etc.
- Publish meeting report through IFLA
- Follow-up papers and recommendations including impact statements on the Working Group recommendations
- All presentations, etc. on the IME ICC Web site
